Nikon D3x 24MP DSLR Camera (Black)

The dynamic range of the D3X has broadened to such an extent that you can expect finer tonal gradation in highlight areas — even with extremely bright subject matter, such as skies, snowfall or white clothing shot under harsh sunlight. And thanks to more accurate treatment of data via 14-bit A/D conversion and a 16-bit image-processing pipeline, tone jump is negligible. * Effective pixels: 24.5M * Image sensor: CMOS sensor, 35.9 x 24.0 mm; Nikon FX format; total pixels: 25.72 million * Sensitivity: ISO 100 to 6,400 * LCD monitor: 3-in., approx. 920k-dot (VGA), 170-degree wide-viewing-angle, 100% frame coverage, low-temperature polysilicon TFT LCD with brightness adjustment * Storage media: CompactFlash (Type I/II, compliant with UDMA); Microdrives * Interface: Hi-speed USB * Battery: Rechargeable Li-ion Battery EN-EL4a/EL4 * Dimensions: 159.5 x 157 x 87.5 mm * Weight: Approx. 1220g without battery, memory card, body cap or accessory shoe cover

Цена: **4 500 \$**
